### GATEWAY TO JOBS

#### Job Interview Do's:

- Plan to arrive on time or a few minutes early. Late arrival for a job interview is never excusable.
- Greet the interviewer by their first name.
- Wait until you are offered a chair before sitting. Sit upright and always look alert and interested. Be a good listener as well as a good talker.
- Maintain eye contact.
- Follow the interviewer's leads but try to get them to describe the position and duties early in the interview so you can relate your background and skills to the position.
- Keep in mind that you alone can sell yourself to an interviewer. Make them realise why they need you in their organisation.
- Always conduct yourself as if you are determined to get the job. It is better to be free to choose from a number of jobs rather than only one.

#### Job Interview Don'ts:

- Lie. Always answer questions truthfully, frankly and as concisely as possible.
- Ever make derogatory remarks about your present or former employers, colleagues or companies.
- 'Over-answer' questions. The interviewer may steer the conversation into politics or economics. It is best to answer the questions honestly, saying no more than is necessary.
- Let your discouragement show. If you get the impression the interview is not going well and you have already been rejected, don't show discouragement or alarm. Occasionally an interviewer who is genuinely interested in you may seem to discourage you in order to test your reaction.
