GATEWAY TO JOBS

Failures are Friends: Try to open the cap of the bottle. First 10 times it will not open, 11th time it will open up. First 10 times are failures, 11th time is success. But, in the first 10 attempts, there were micro changes in the molecular structure of the cup and bottle, which is not seen by the naked eye. But, they all helped in their own way. Success is possible only after a long list of failures. Failures are the stepping stones to success. It's only through mistakes that one can learn. Learn from failures; don't blame others for your failures. You are the architect of your own life. Nobody else in this world can change your life, nobody can make you happy, and nobody can make you unhappy. Life is completely a mind's game. To learn English, speak in English, as much as you can, in class room, with friends, in rest rooms, in mess, everywhere. When you are making many mistakes, you know that you're progressing a lot! Come on, buck up!!! Success is directly proportional to failures. If you want to be successful fast increase your failure rate first!!!

Be sportive: A child falls while walking but just gets up and goes ahead! Let us learn that sportsman spirit from a child for our own glorification. Avoid loose talks, gossips, character assassination. This can be practiced only by people with character. **“Character cannot be developed in ease and quiet. Only through experience of trial and suffering can the soul be strengthened, vision cleared, ambition inspired, and success achieved. Life is either a daring adventure or nothing” - Helen Keller**

Think Aloud: think loudly, read loudly, and Act loudly. You are what you think, and you can become what you think. Analytical skills improved only when starting a lot. Think differently; think fast, thoughts are somebody's monopoly. Whatever the human mind will conceive and believe, it will achieve. Think loudly, read loudly, Act loudly, live loudly and leave loudly with a great sense of satisfaction. While giving examinations, aim 100 out of 100 and prepare after a strategic planning, and see the results. If you aim Bench first, aiming 36 out of 100, you'll end up claiming 26/100!

Self Esteem: vivekananda's mantra “If you think you are weak, it is sin No. 1”. The first step to success and happiness in life is ‘Love yourself, like yourself, Respect yourself, and admire yourself, believe in yourself. If you've faith in the 33 million Gods, no problem, have a faith in yourself, your hard work. Full effort is full victory. Whatever your caste may be, however poor you may be, however ugly looking you may be, you may not be having a single hair on your head, still, love yourself, admire yourself. Don't look for heroes, be yourself a hero. A person who respects himself only can respect others. A few simple tips for your self esteem to be very high. (i) don't waste even a single grain of any food while eating. Don't contribute anything to 'national wastage'. About 5000 Indians die every day for lack of food don't murder your brother or sister by wasting of food! (ii) Do not talk bad about your friends or colleagues in their absence. (iii) Be the first to wish the people, even Strangers. One who receives stranger with Love and country is the Citizen of the World (iv) Read English loudly for 15 minutes (v) smile, a smile improves your confidence levels 100 times.
